

BP Elect Gale Brewer Helps DDP Deliver!!

Wireless Technical Campuses bring Increased Digital Opportunities to NYCHA Residents

BP-Elect Gale Brewer and DDP Co-Chair Douglas Frazier (center) inaugurate the *Federal 8 Wireless Technical Campus* with TA Presidents Jack Chandross, Creola Kelly, Zoraida Bonilla and Angelina Monroe-Mayo

Thanks to Manhattan Borough President-Elect Gale A. Brewer and WSURA (Federal 8) resident leaders, NYCHA families on the Upper Westside now have increased digital opportunities, including access to free Wi-Fi and educational and informational programming available over the Internet.

Gale Brewer is helping to bring the public/private sectors together with innovative technological solutions that replace sterile bureaucratic solutions previously supplied by NYCHA. She has made extra efforts to insure that technological issues and concerns of her constituents are addressed and that employment opportunities are made available.

Technology use for Tenant Safety & Employment Expands

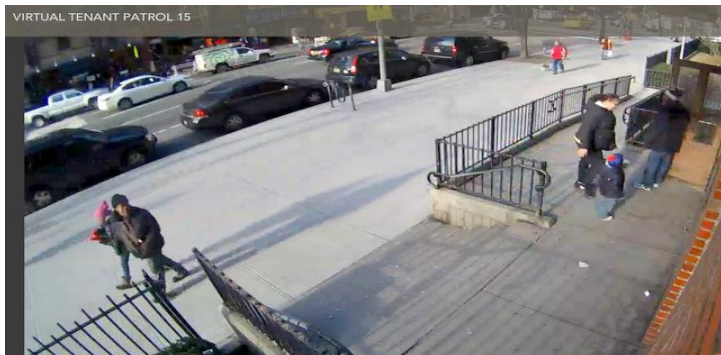

Bronx South District Council of Presidents Chairman John Johnson has led successful efforts to increase tenant empowerment and employment. Johnson's visionary leadership is responsible for bringing free **Wireless Technical Campuses** and increased digital opportunities to NYCHA residents in the Bronx and Manhattan.

WIRELESS TECHNICAL CAMPUS Comes to Harlem's Riverbank State Park!

Thanks to NYS Assemblyman Keith Wright, Riverbank has become the first State Park in New York to provide free public Wi-Fi service to its 2 million annual park visitors. The Wireless Technical Campus is jointly sponsored by CCNY's WHCR Radio, Streaming University and the DDP.

News Update: December

The Johnson Houses Resident Association was recently instrumental in using their **Virtual Tenant Patrol** system to assist the NYPD in finding a missing young girl.

The DDP is also continuing its historic partnership for broadband services with the Bedford Stuyvesant Restoration Corporation in extending the **Wireless Technical Campuses** further into Brooklyn neighborhoods.

The year 2014, and the next four years, should be an historic time for public housing residents, poor or otherwise, who depend on public services being adequately funded. The DDP shall continue working to ensure that technology, employment and safety issues continue to be addressed.
